STYLE TILE

THE SHINING

We have chosen Stanley Kubrick's "the Shining", a psychological horror film based on the Stephen King novel of the same name.

CHARACTERS

We have four characters in our interactive poster: Danny, the twins and a decomposing woman. We will be tracing their images from the movie, and using organic shapes. The characters will be outlined with a thin dark line.

TYPOGRAPHY

We have chosen "Courier New" as our typography for larger bodies of text. It has good readability, and is reminiscent of the typewriter font from the film. For headlines we have chosen the font "Cinzel". It is a bold and chunky serif font.

AUDIO

We will be using clips from the film to create an uneasy and scary atmosphere. We will also be recording a few sound effects of our own to compliment the world.

COLORS

We have been inspired by the colors from the carpet in the film. We want the red to stand out against them and create a scary contrast when it appears. We also have the blue in Danny's sweater which is complimentary against the orange.
